Perumahan PJMI, B1 Jl. Paus No.5, Jurang Manggu Tim., Kec. Pd. Aren, Kota Tangerang Selatan

I am a Front End Developer with over 2 years of experience. I am proficient in using ReactJS as the main framework for web development. Additionally, I have expertise in using TailwindCSS and Bootstrap for website styling and appearance. Apart from focusing on frontend development, I also have knowledge in user interface (UI) and user experience (UX) design, and I frequently use software such as Figma or Adobe XD to create appealing and responsive designs.
